

County Medical Group Backs Up Hahn's Request for Smog Study

The Los Angeles County Medical Assn. has offered its full support and cooperation of Supervisor Kenneth Hahn's proposal to have topflight medical men review and evaluate conflicting opinions expressed by two prominent researchers on the effects of air pollution on public health.

Dr. Clarence Mills of Cleveland recently testified before a congressional committee that air pollution had contributed to an excess number of deaths in Los Angeles County, while Dr. Paul Kotin, of USC, has indicated there is no evidence that smog is responsible for any deaths.

Arrive At Truth Supervisor Hahn had then urged that the Los Angeles County Medical Assn. evaluate the evidence and arrive at the truth.

Dr. Edward C. Rosenow Jr., president of the Los Angeles County Medical Assn., in a letter to Supervisor Hahn, stated: "The Board of Supervisors' decision yesterday to establish a program to evaluate medical opinion relative to the possible harmful effects of smog, has been brought to my attention."

"The Los Angeles County Medical Assn. has always been concerned with the problem of air pollution and on numerous occasions has called for a maximum effort to be put forth into an investigation of the medical aspects of smog."

"I would like to take this opportunity to express my concurrence with the board's decision and at the same time extend to it the promise of full cooperation in this new endeavor."

"The Los Angeles County Medical Assn.'s smog committee, headed by Dr. Francis M. Pottenger Jr., and the executive staff serving 6700 physicians of the association stand ready to give you every assistance."

ISLAND COST
Cost to the U.S. of the Virgin Islands was about \$25 million, three times the price of Alaska. The islands cover only 133 square miles while Alaska has 586,400 square miles.
